FOR IMMEDIATE RELEASE

The City of Vaudreuil-Dorion unveils the 73 projects planned for implementation

Vaudreuil-Dorion, December 8, 2020 – The City of Vaudreuil-Dorion is proud to unveil its Strategic Plan 2020-2025, which was adopted last night during the Municipal Council meeting.

The strategic planning process began in the summer of 2019. A great number of citizens, employees, partners and organizations responded to a survey and took part in consultation workshops to determine which projects and activities would best correspond to the City's aspirations. This strategy is part of the Municipal Council's commitment to develop a planning tool that will enable the City to properly define its priorities, issues and challenges, as well as orient its actions over the short, medium and long term.

The official launch was scheduled for spring 2020, but due to the pandemic, the unveiling of the action plan had to be postponed. In the fall of 2020, the Municipal Council and the Steering Committee took the time to reassess its actions and aspirations to make sure they were still relevant in light of the events that occurred in the spring. The economic development component was becoming more important than ever due to the challenges faced by many businesses as a result of the pandemic. This component is covered by the Vaudreuil-Soulanges Local Development Centre (DEV), whose mission it is to foster local economic growth and vibrancy. A section of the strategic plan is devoted to the actions implemented by the DEV.

"The Municipal Council is pleased to unveil the City of Vaudreuil-Dorion's Strategic Plan 2020-2025, which was created with the citizens, for the citizens. I wish to thank our partners, our organizations and our citizens who completed the survey and participated in the consultations. You played a very important role in selecting the projects that will serve to improve our quality of life. Our goal is always the same: To provide citizens of all generations with a very human living environment and a variety of quality services. We are proud of how far we have come and you will see for yourself by consulting the document that the future is very bright," said Mayor Guy Pilon.

"Where do we want to take the City of Vaudreuil-Dorion and how are we going to get there? The Strategic Plan contains the answers to these questions and it therefore serves as a guide for the entire municipal administration. It is the result of a collective effort that was carried out while

taking into consideration our social and financial reality. I would like to thank the members of City Council for their support of this process, as well as the employees who participated in the workshops. Their commitment shows how much they care about the services we offer our citizens, and their contribution is key to the Plan's realization», said Director General Olivier Van Neste.

The documents related to the Strategic Plan 2020-2025, entitled **Habité par ma ville**, as well as the results of the survey, the Statistical Profile of the City and the actions implemented the DEV Vaudreuil-Soulanges are all available on the City of Vaudreuil-Dorion's website.
