

**FOR IMMEDIATE RELEASE**

## **Organic matter: Pick-up operation for small brown bins**

**Vaudreuil-Dorion, October 3, 2023** – Delivery of the 240-litre wheeled bins for organic waste was completed last week for the entire residential sector of Vaudreuil-Dorion. Citizens now have two options for the small 45-litre brown bin currently in their possession: One option is to keep it for a different use, and another is to dispose of it during the City’s pick-up operation, which will be carried out by sector. These small bins will no longer be accepted during municipal organic waste collection.

### **Pick-up schedule and instructions**

The 45-litre bins will be picked up according to each sector. Citizens are invited to use the Search by Address tool on the City’s website to confirm the sector where they are located. Bins must be empty and placed at the curb by 7 a.m. on the first day of pick-up, according to the following schedule:

<b>Sector</b>	<b>Place bin at curb on</b>	<b>Bin will be picked up by</b>
3	October 23rd	October 31st
2	November 1st	November 7th
1	November 8th	November 16th
4	November 17th	November 22nd
5	November 23rd	November 24th

Note that all bins picked up by the contractor will be recycled.

### **Extra 240-litre brown bins?**

Some citizens who already had an organic waste bin received an additional one by mistake. These extra bins will be collected by the contractor according to the same pick-up schedule as the small brown bins. Simply place the large bin upside down at the curb to clearly indicate that it is to be returned.

For any questions related to smart collection, please visit the City’s website or contact the Environment Department at [environnement@ville.vaudreuil-dorion.qc.ca](mailto:environnement@ville.vaudreuil-dorion.qc.ca) or by calling 450 455-3371, option 1.
